2019

PROFILE

For over 5 years I've utilized my expert level visual design skills to generate innovative product and creative solutions for my employers and clients. I have 7 years in production, digital and print, including in management. Flexible by nature, but with a strong work ethic. I always volunteer to take on the new challenges and strive hard to attain the next level. Social and cultural adaptability in both company and client relations come easy to me. I am fortunate to have had the opportunity to create both engaging and interactive experiences for clients from a variety of fields, including Genomic Health, Pfizer, & Kaiser Medical, mobile gaming company SUPERCELL, and music festival SXSW. I'm excited to challenge myself and my career further than ever before, for a new position where I can grow, excel and not do simply my best, but THE best.
